### c. Total Number of Models (US) by Air Interface

Air Interface	Number of Models	Air Interface	Number of Models
GSM	2		
<b>TOTAL</b>	<b>2</b>	<b>TOTAL</b>	

## SECTION 3. PRODUCT LABELING INFORMATION

Our suppliers have been inconsistent in providing HAC-certified handsets with the required labels.

## SECTION 4. CONSUMER OUTREACH EFFORTS

i wireless has provided information to our call center and sales channels. The following verbiage is included in our consumer-oriented brochures:

Ask your i wireless representative about hearing aid compatible phones and accessories.

## SECTION 5. RETAIL AVAILABILITY OF COMPLIANT MODELS

The Motorola RAZR V3i and Nokia 6061 are available for purchase from all of our retail stores, our website and our telephone sales call center. If a handset is out of stock at a sales location, a replacement can usually be acquired in no more than two business days. A handset ordered from our website or call center before noon will usually be delivered to the customer the next business day.

## SECTION 6. EFFORTS TO INCORPORATE HEARING AID COMPATIBILITY INTO NEW MODELS

When i wireless considers new handset models to carry, one of the criteria we use in determining whether or not we want to carry the product is its level of compatibility with hearing aids. We continue to be limited by the choices provided to us

by the manufacturers.

## **SECTION 7. ACTIVITIES RELATED TO ANSI C63.19 OR OTHER STANDARDS**

We carry handsets from **Motorola, Nokia, Samsung** and **HTC**. Three of these four handset manufacturers participate in the ATIS Incubator Solutions Program 4 – Hearing Aid Compatibility. They have been active in addressing and revising standards related to hearing aid compatibility (HAC).

## **SECTION 8. EFFORTS TO TEST INTEROPERABILITY WITH HEARING AIDS**

As a smaller wireless carrier, we do not have the resources to test every handset with every hearing aid on the market. We have to rely on the manufacturers and third-party testing organizations to test interoperability.

## **SECTION 9. INFORMATION REGARDING DIFFERENCES IN HANDSET OFFERINGS AMONG REGIONS IN SERVICE AREAS** *(Service Providers Only)*

All handsets can be purchased at all i wireless points of distribution. Our independent agents may not have a particular handset in stock, but can order one from our warehouse. An order placed before noon will usually be delivered to the agent the next business day.
